

## ASCCC Open Educational Resources Initiative (OERI) OER Development Support Options

Since its inception, the OERI has been providing OER-related professional development opportunities across the state and developing resources to support OER exploration, advocacy, institutionalization, and development. In addition, through five OER-development funding cycles, the OERI has developed a comprehensive process for facilitating OER-development that consists of the following components:

1. Project management throughout resource development
2. Clarify deliverables (e.g., how many chapters a book will consist of with titles/topics and approximate pages, what type and how many questions a test bank will consist of)
3. Establish timelines and deadlines
4. Develop templates (e.g., chapter structure - objectives, format, types of headings, etc. - so the look and feel has consistency)
5. Provide OER basics and accessibility training (self-paced courses with office hours to support)
6. Provide platform training - LibreTexts, H5P, MyOpenMath, etc.
7. Recruit additional participants (as might be needed if specific expertise is missing or collaboration is wanted)
8. Accessibility review (and Universal Design for Learning, if desired)
9. Attribution review
10. Content review (peer review)
11. Inclusivity, Diversity, Equity, and Anti-Racism (IDEA) review

As colleges may need assistance in OER development as they establish zero-textbook-cost (ZTC) pathways, the OERI is prepared to tailor its support to meet your local needs, or you can select from one of the following options.

### **Project-Based Support**

\$5,000 - \$10,000 (price dependent upon size of the team and complexity of the project)

Designed to support individuals or teams of no more than five from project definition to completion. The Project-Based Support package consists of:

1. Project management throughout resource development
2. Clarify deliverables
3. Develop templates, as needed
4. Provide OER basics and accessibility training (self-paced courses with office hours to support)
5. Accessibility review
6. Attribution review
7. Inclusivity, Diversity, Equity, and Anti-Racism (IDEA) review

## **Project-Based Support Optional Add-Ons**

(\$500 - \$5,000)

1. Recruit additional participants based on identified needs and manage compensation of non-district participants
2. Provide platform-specific training - LibreTexts, H5P, MyOpenMath, etc.
3. Accessibility remediation
4. Attribution remediation
5. Assistance with Inclusivity, Diversity, Equity, and Anti-Racism (IDEA) remediation
6. Content review (peer review)
7. Instructional design services

## **College-Based Support Options**

(\$1,000-\$5,000)

1. Host a series of webinars or one-day workshop(s) tailored to the college's needs on a variety of topics including:
  - a. OER Basics – finding OER, licensing fundamentals
  - b. Accessibility and IDEA in the OER context
  - c. OER Ancillaries – homework systems, images, test banks
  - d. OER Publishing – introduction to OER publishing platforms
2. Assist in developing an OER/ZTC sustainability plan
3. Support for mapping ZTC sections
4. Developing a method to quantify the impact of OER
5. OER Review Package including:
  - a. Accessibility review
  - b. Attribution review
  - c. Inclusivity, Diversity, Equity, and Anti-Racism (IDEA) review
6. Other customized services for your college needs
